From the Desks of Coordinators...

"The Echoes of the Past" remind us that every achievement of today stands on the foundation of yesterday's dreams and efforts. From chalkboards to smart-boards, from handwritten notes to digital screens, education has evolved-but the essence remains the same: to enlighten minds and shape character. The values, discipline, and curiosity nurtured in the past still resonate in our classrooms, guiding students toward a brighter future. As we move forward embracing innovation, we must never forget the roots that have shaped our journey. The past is not gone-it continues to echo in every lesson we teach and every success we celebrate.

– Mr. Rahul Trivedi
Coordinator

"Those who cannot learn from history are doomed to repeat it." – George Santayana

"The Echoes of the Past" remind us that education, though ever-evolving, holds steadfast to its timeless essence. From ancient oral traditions and classical emphasis on moral character to the disciplined methods of rote learning, each era has shaped how we value structure, knowledge, and integrity in education.

While modern classrooms hum with the sound of technology and innovation, the spirit of education's past still resonates - in our commitment to foundational learning, discipline, and the enduring bond between teacher and student.

These echoes remind us that true progress in education lies not in abandoning the past, but in building upon it - honouring the wisdom that brought us here while shaping a brighter, more inclusive future of learning.

– Ms. Neeta Thakur
Coordinator

Tracing Timeline, Shaping Tomorrow...

"The Echoes of the Past" remind us that history is not confined to old books or forgotten monuments-it lives within us, guiding every step we take. The subject of Social Studies helps us hear these echoes clearly, connecting us to our heritage, culture, and traditions-the roots that shape our identity.

Each lesson in history, geography, civics, or economics reveals how the ideas, values, and experiences of our ancestors continue to influence our present. From the planned cities of the Indus Valley to the principles of our Constitution, the past whispers lessons of courage, unity, and wisdom. In classrooms, when students discuss freedom, equality, or justice, they keep these echoes alive-transforming memories into meaningful learning.

As educators, we see the past not as distant, but as a living guide that inspires thoughtful action and responsible citizenship. These echoes remind us that progress rooted in respect, cooperation, and moral strength endures through time.

– S.St. Department

Celebrating Our Legacy, Cherishing Our Journey...

"Education is not the learning of facts, but the training of the mind to think." — Albert Einstein

Guided by this belief, our school embraced change while keeping values at its core.

Founded in 1987, NLK Vidya Mandir Inter College began its

journey with a simple vision - to nurture minds and shape futures. What started as a few classrooms and a handful of dreamers has now grown into a vibrant institution buzzing with ideas, creativity, and achievements.

THEN & NOW

| Sl. No. | Name | Class | English | Hindi | Maths | Science | Social Science | Art | Music | Physical Education | Practical | Attendance | Remarks |
|---------|------|-------|---------|-------|-------|---------|----------------|-----|-------|--------------------|-----------|------------|---------|
| 1 | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... | ... |

LIBRARY:

Then: The library with shelves of old books was a quiet, archival vault of physical print, demanding physical presence to access knowledge.

Now: The new library and reading zones are flexible, multimedia hubs offering digital resources, collaborative spaces, and community engagement beyond the printed word.

REPORT CARDS:

Then: The handwritten report card was a singular, tangible artifact—a formal, often nerve-wracking envelope delivered annually, signifying a closed chapter of learning.

Now: The digital report is a continuous, accessible data stream, offering parents and students real-time, personalized insight into progress and future goals.

COMPUTER LAB:

Then: The computer lab with limited access was a rigid room of shared, stationary machines, providing scheduled, non-collaborative exposure to technology.

Now: The specially designed lab is a flexible, collaborative hub, integrating powerful, specialized tech for creative, project-based STEAM learning.

Echoes of Experience...

Editorial Board: If you could return to one day from your past as a teacher or student, which day would you choose and why?

Bajpai Sir: I will choose the day when I was awarded by a celebrity on the occasion of Kathasangam, December 22, 2023. It was my privilege to be considered as an awardee by the management authority for my continuous services.

Editorial Board: What's a hobby or interest outside of work that helps you recharge after a long teaching day?

Bajpai Sir: I involve myself in evening walks as well as reading, which improves my focus after a long teaching day.

Editorial Board: Which past experiences remind you why you chose teaching as your profession?

Bajpai Sir: After completing my graduation, I decided to be a teacher. I got this perspective from my family members. My uncle had been a good influence on me as he was a teacher.

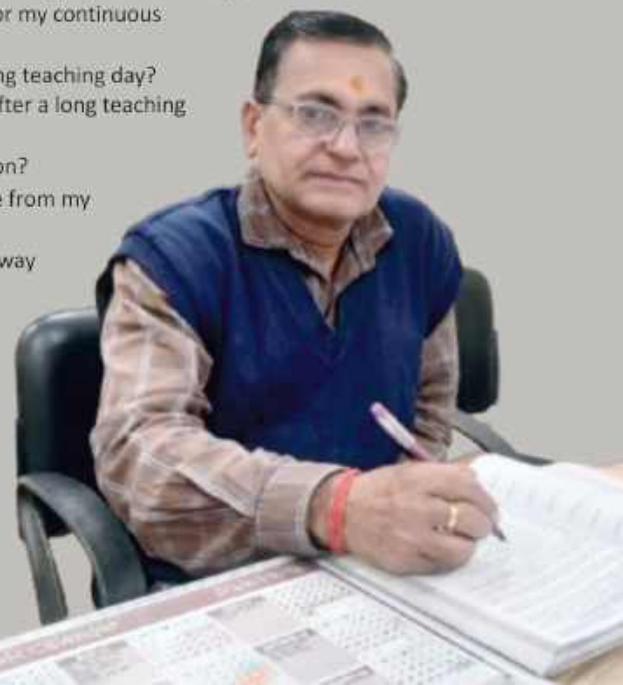

Editorial Board: Can you recall an incident from your early teaching years that still guides the way you handle students today?

Bajpai Sir: Yes, I recall an incident of board appearing students who stayed at the school premises for board preparation. I had to stay with them at night in the year 2000 and 2001. Even today, I teach them with great devotion. My perseverance and devotion towards the students pay the best for achieving their goals and efforts.

Editorial Board: What lessons did you learn after your schooling, but you wished that you had known them before?

Bajpai Sir: After schooling I learnt a lesson that a certain goal is very crucial in the life of a man to live a smooth life. I think it is very high time to have a professional and technical education in order to build a career.

— Mr. A.N. Bajpai

भाषा, भावना और अभिव्यक्ति का उत्सव

Hindi Quiz Competition...

एन.एल.के.वी.एम. इंटर कॉलेज में हिंदी भाषा के उत्सव को मनाने के लिए एक रोमांचक हिंदी दिवस प्रश्नोत्तरी प्रतियोगिता का आयोजन किया गया। यह प्रतियोगिता विशेष रूप से कक्षा 6 के विद्यार्थियों के लिए आयोजित की गई थी, जिसमें विद्यालय के चारों हाउस— गंगा (ग्रीन), नर्मदा (रेड), ब्रह्मपुत्र (ब्लू) और यमुना (येलो) के बीच उत्साहपूर्ण मुकाबला हुआ।

प्रथम स्थान: गंगा हाउस (ग्रीन)

द्वितीय स्थान: नर्मदा हाउस (रेड)

तृतीय स्थान: ब्रह्मपुत्र हाउस (ब्लू)

चतुर्थ स्थान: यमुना हाउस (येलो)

Lights, Camera, Fun...

As part of the school's excursion programme, students of Classes VI to VIII were taken to watch the inspiring movie "Narasimha". The trip offered students a perfect blend of learning and entertainment. They thoroughly enjoyed the experience, which not only provided relaxation from routine studies but also conveyed valuable life lessons through its powerful storyline and performances.

Mountains, Memories, and Moments...

Our Unforgettable Nainital Trip: Students of Classes IX to XII embarked on a memorable trip to Nainital to explore nature, adventure, and learning beyond the classroom. The journey was filled with laughter, songs, and excitement. Students enjoyed exploring Mall Road, savoured local delicacies, and admired the stunning Himalayan views from Snow View Point. Thrilling activities like rock climbing and trekking added to the fun, while evening bonfire sessions strengthened friendships and created lasting memories. The trip concluded with hearts full of joy and gratitude — a truly enriching and unforgettable experience for all

SPARKLE AND SPICE

Diwali Double Fusion Flare

Sparkle and Spice: Diwali Double Fusion Flare 2025–26 was a grand celebration at NLK Vidya Mandir Inter College, Vishnupuri, beautifully reflecting the true spirit of Diwali – joy, unity, and cultural pride. The fest showcased excellence, filling students with E³: excitement, enthusiasm, and energy for the year ahead. The event was graced by Mr. Abhishek Chaturvedi, Ms. Sanchita Kapoor Ma'am, Principal Sir, Vice Principal Ma'am, and principals of other branches. Students were felicitated for Best Attire, Best Dance, and the exciting Lucky Draw prizes, including an LED TV, an Air Fryer, and a Dinner Set. The celebration lit up the campus with talent, happiness, and togetherness, making it a memorable occasion for all.

Food Carnival 2025: The Flavour of Unity...

NLK Group of schools celebrated a joyful Food Carnival, filling the campus with colors, aromas, and cultural charm. Students dressed up in traditional attires of different countries, proudly representing global diversity. Adding a delightful touch, dishes from India, Mexico, Japan and Italy— from Indian curries to Italian pastas, noodles, and more. The event turned into a lively celebration of taste, love, and togetherness. The Food Carnival beautifully conveyed that food is more than taste – it is a bridge that connects hearts across cultures. It inspired everyone to value the traditions and flavours of every nation.

"Flavours may differ, but the joy of sharing remains the same."

Honouring the Guiding Lights...

The students of NLK Vidya Mandir Inter College expressed heartfelt gratitude towards their teachers on Teacher's Day by presenting them with beautiful cards, creative titles, and thoughtful one-liners, making the day truly emotional and memorable. Later that evening, during the Teacher's Day celebration at NLK Academy, two dedicated educators – Ms. Sunita Tripathi and Ms. Neeru Dhingra, were felicitated for completing 10 graceful years of service with the NLK family, followed by Mr. Adesh Bajpai & Mr. Aman Pathak getting honoured with special titles.

Igniting Curiosity...

STEAM sessions in school focus on integrating Science, Technology, Engineering, Arts, and Mathematics into a cohesive learning paradigm. These sessions move beyond traditional subjects to foster interdisciplinary skills and critical thinking. Students typically engage in hands-on, project-based learning that encourages creativity, collaboration, and critical thinking through problem-solving. For instance, a STEAM project might involve designing and building a small, functional bridge (Engineering and Math), using software for digital modelling (Technology and Art), and studying the physics of forces (Science).

A Step Towards Collaborative Growth...

The Parent-Teacher Meeting (PTM) serves as a crucial link between the home and the school, fostering effective communication for the holistic development of students. It provides an opportunity for parents and teachers to come together to discuss a child's academic progress, behavior, and overall well-being. Through these interactions, parents gain valuable insights into their child's learning patterns, while teachers receive support in guiding students more effectively. As the saying goes, "Education becomes powerful when parents and teachers unite to guide the child's journey".

Joy, Energy, Team Spirit...

Joy bubbled through every corner as our students leaped into class-wise sports activities. The field turned into a lively canvas of energy where every cheer carried a spark. Team spirit wrapped around the day like a bright ribbon, pulling everyone together. Each race became a tiny lesson in courage, laughter, and learning. Every child glowed in their own brilliant style, reminding us why this day belongs to them. Children's Day became a celebration of their spirit, their smiles, and their unstoppable zest.

Celebrating Excellence!

Our students brought immense pride to NLK Vidya Mandir Inter College with their remarkable achievements across various competitions. In Karate, Kavya Saxena of Class 9 earned the prestigious Orange Belt under the Shotokan School of Karate, affiliated with the Karate India Organisation. Vaibhavi Agnihotri of Class 7 delivered an outstanding performance at the 69th District School Athletics Championship held at BNSD Shiksha Niketan, Kanpur, securing Gold in the 100m race and in the long jump. In the field of art, Kavya Prajapati of Class 7 won the 3rd Prize at the Art Competition organized by Pushpa Khanna Memorial Centre in collaboration with Dainik Jagran. Dipendra Awasthi of Class 8 achieved the 5th Position at the 171st Regional Abacus Competition Festival held at Jaipuria, Lucknow. Our students also excelled at the Youth Olympics, where Mayank Gautam of Class 12 clinched multiple Gold Medals in Boxing across City, District, Mandal, and State levels, including the 48–50 kg and 52–54 kg categories. In Judo, Navyaa Shukla (Class 8) and Lavanya Kashyap (Class 10) secured Gold Medals at the Youth Olympics. Additionally, Vaibhavi Agnihotri of Class 7 triumphed once again at the Sansad Vidhaayak Khel Spardha, winning Gold Medals in the 200m, 100m, and long jump events. These stellar achievements reflect the dedication, talent, and unwavering spirit of our young champions.

Why does 1 hour feels shorter than before?

Have you noticed that an hour seems to go by faster? You start working on a task, and before you know it, those hours have zipped up. You are right, that is how we now measure time in our society. We live in a modern civilization with constant activity. Everyone is zipping about with their phones buzzing, their computer screens lit up, and limited slots in our brains to manage the countless things we are always juggling in the day. Our brains are doing so very much that it appears they have hardly a chance to breathe. When you are constantly involved in things, your brain cannot note down all of the changes it notices and simply gloms the whole thing into seconds, making your time perception fly by. Science shows that we measure time by the number of new experiences we have or notice. When you are doing something new and or perhaps exciting, your brain was creating more variable memories; that is, your perception of where the hours went were slower. In other words, when you are in a normal daily routine; same school, same drive, same routine we basically stop 'noticing' the experiences but only ride in the routine.

– Agrim Trivedi
High School Topper

Words from the Minds Behind the Pages...

The past gently reminds us of the events, people, and experiences that have shaped who we are today. It offers perspective, instills gratitude, and helps us recognize how far we have come. Every memory—of triumph, struggle, or pure happiness—has contributed in some way to the person we've become. Our memories serve not only as archives of the past but also as lanterns lighting the way forward. They remind us of the lessons learned, the relationships formed, and the dreams ignited within these very walls. Each passing year adds another chapter to our shared story. What makes our collective past so special is how it brings us back together—with our school, our teachers, our friends, and the sense of belonging that binds us as a family. These echoes of the past remind us that, though time may separate us, the feelings, laughter, and lessons remain with us always. As we move forward, may we carry these echoes in our hearts, drawing strength from them as we create new experiences for generations to come.
